s.priyadarshene565@gmail.com | +91 8189853464 | Coimbatore, TN | [LinkedIn](#) | [GitHub](#) | LeetCode & CodeChef: 2500+ Problems Solved

EDUCATION

B.E. — Computer Science & Design | Sri Krishna College of Engineering & Technology, Coimbatore

2024 – 2028

CGPA: 8.5+/10

- No Active Backlogs
- Expected Graduation: July 2028

TECHNICAL SKILLS

Languages: Python, C++, Java, JavaScript, HTML, CSS

Frameworks & Tools: React, Angular, FastAPI, Node.js, Spring Boot, Git, GitHub, REST APIs, CI/CD, Agile/Scrum

Cloud & DevOps: AWS (basics), Cloud-based deployments, Apache Kafka, Maven

AI / ML & Databases: Pandas, NumPy, scikit-learn, XGBoost, YOLOv11, EasyOCR | MySQL, PostgreSQL, H2, MongoDB

Networking: Cisco Networking Basics — IP addressing, routing protocols, network architecture, LAN/WAN

Design: Figma, Adobe XD, Sketch — UI/UX, Wireframing, Prototyping, Design Systems

Concepts: DSA, OOP, SDLC, Big Data, Business Analysis, Application Resiliency, Software Maintenance

VIRTUAL EXPERIENCE

Software Engineering Job Simulation | JPMorgan Chase & Co. | Forage

Feb 2026

- Built Spring Boot microservice integrating Apache Kafka to process high-volume transaction messages; implemented transaction validation and data persistence using Spring Data JPA and H2 SQL database
- Connected service to external REST Incentive API via RestTemplate; developed REST endpoints returning JSON responses through Spring controller following clean architectural design
- Verified system reliability using Maven test suites and debugger-based inspection across Kafka messaging, database operations, and external API calls

WORK EXPERIENCE

Angular Full Stack Intern | Infosys Springboard | Virtual

Aug – Sep 2025

- Developed full-stack web features using Angular & RESTful APIs following Agile/CI/CD workflows; improved app performance by optimizing components and reducing load time significantly
- Collaborated with cross-functional teams to deliver scalable front-end components; participated in sprint planning, code reviews, and agile ceremonies in an enterprise development environment

C++ Developer Intern | TechnoHacks EduTech | Virtual

Sep – Nov 2024

- Built cryptographically strong password generator in C++ implementing randomness and complexity algorithms meeting industry security standards; delivered project end-to-end with full ownership
- Wrote clean, well-documented code following best practices; applied software testing and QA techniques through iterative debugging to validate all outputs against benchmarks

PROJECTS

SmartQueue AI — Hospital Queue Management System | Python, FastAPI, React, XGBoost

2025

- Built AI-powered hospital queue platform predicting patient wait times using XGBoost; no-show prediction engine achieved 78% accuracy reducing wasted doctor time by 25%; deployed on cloud-based back-end
- Integrated Twilio WhatsApp chatbot for real-time queue alerts; designed admin dashboard with peak load forecasting and live analytics using React & Chart.js

AI Traffic Violation Detection System | Python, YOLOv11, EasyOCR, Streamlit

2025

- Achieved 85%+ detection accuracy using YOLOv11; EasyOCR with multi-stage preprocessing (upsampling, Gaussian blur, Otsu thresholding) reads Indian vehicle plates from live video feeds
- Built Streamlit dashboard with live bounding box overlays, per-vehicle counts, violation logging, and detection reports — demonstrating full SDLC delivery

Secure Password Generator | C++

2024

- Cryptographically strong password generator with configurable length, character sets, and complexity rules; randomness algorithms meeting enterprise-grade security standards

UI/UX DESIGN (FIGMA)

Website UI/UX | Mobile App | Dashboard Design | Prototypes & Wireframes

2024 – 2025

- Designed responsive websites, mobile app screens with user flows & component libraries, and data-rich admin dashboards using Figma, Adobe XD & Sketch; built reusable design systems with dev-ready handoffs
- Created low-fidelity wireframes and clickable high-fidelity prototypes for rapid iteration and user testing

ACHIEVEMENTS, CERTIFICATIONS & EXTRA-CURRICULAR

- **LeetCode: 614+ solved** — 365/300/200/100/50-Day & Pandas Badges | CodeChef: 2500+ problems solved | Active hackathon & coding contest participant
- Certifications: Intro to AI (IBM/NxtWave), Cisco Networking Basics, NoSQL Databases, Learn Python, Web Development, Genius Program — NxtWave (2024–Present)
- Tech blogger (DSA, web dev, AI topics); college event volunteer; workshops on cloud, C++, and emerging tech
